

EC-DECLARATION OF CONFORMITY

We confirm the equipment which accompanies this declaration is in conformity with EU Directive: EMC directive 2004/108/EEC and carries the CE marking accordingly.

Name of manufacturer	eTactica ehf
Contact information of the manufacturer	Hlíðasmári 14, 201 Kópavogur Iceland Tel +354 535 3000 Registration number: 630609-0700
Description of the product	eTactica Power Meter (EM-xx) The EM is an energy meter, intended for measuring mains connections in a cabinet or sub-cabinet, for either single or three-phase installations. The EM measures continuously voltage, current and power factor and tracks cumulative active and reactive kilowatt-hours and line frequency. The EM has a built-in microcontroller and supports the industrial standard Modbus/RTU slave interface via RS485, for connecting external concentrators or data gateways. The product family includes two devices, that differs in current sensor type: <ul style="list-style-type: none"> - EM-SC - EM-FC
Trade name, model of the product	eTactica Power Meter, EM-xx
Manufacturer product code	0x4745 – EM-SC 0x4746 – EM-FC
Serial number	Each assembled unit has a unique ID and is registered in our database.

The construction of the appliance is in accordance with the following directives, standards or normative documents:

Product safety	
EN 50178, EN 60664, EN 60730	Electromagnetic compatibility (EMC). Emission
Electromagnetic compatibility	Electromagnetic compatibility (EMC). Immunity
IEC/EN 61000-4-2	Measurement, control and laboratory equipment. EMC requirements
